The Right of Abortion

Volt Croatia

Call to Action!

380.000 times “It is enough!”

Huge protests in Croatia are going on!

In Croatia women does have the legal right to have an a abortion. But lot of hospitals and doctors just refuse to do abortion.

Why?

Official Version is: Because the doctors are using their “right to conscientious objection”.

But most of the people in Croatia know the real reason: The power of the hospitals and doctors has the most powerful Party (HDZ) in Croatia on their back. HDZ is the ruling Christian-democrat and conservative party that controls almost everything in Croatia. That means hospitals and doctors too.

But abortion is not a political question! It is all about health and it is about the right of women to own their own body.

Also the women in Croatia have enough (Dosta je!) of being ignored.

Now they stand up with HUGE SUPPORT!

The second biggest political party in Croatia SDP (social democrats) with Možemo! (Green-Left) joined the protests and they want to put the right to abortion into the Croatian constitution now.

But the Croatian government (dominated by Christian-democrat and conservative party HDZ) rejected that proposal.

So SDP and Možemo want to force the government to organize a referendum in Croatia about this issue in the next few months.

And Volt Croatia is going to support them.

First of all we are going to need 380.000 signatures from Croatian Voters.

And about 100.000 of them are living abroad in the EU.

After collecting 380.000 signatures the government has to organize a referendum.

To achieve that goal we are going to need your help too!

And we are going to have only 14 days to collect the whole 380.000 signatures.

So please support us!

We are already preparing everything for the start of collecting signatures. The start is probably going to be on the 1st of October.

On You Tube and Facebook we are going to publish the exact opening date for collecting signatures.

So it would be good for Volt Croatia and for the whole action to have as many subscribers/followers on You Tube and Facebook as possible.

Then we can inform everybody very, very quickly about the exact opening date for collecting signatures.
